Handicap Flag Policy

Golf Course Handicap Cart Policy – updated 2026

Purpose:

This policy ensures that golfers with disabilities are provided reasonable accommodations in compliance with ADA (Americans with Disabilities Act) while preserving the integrity and playability of the golf course. The Club is dedicated to providing an inclusive and accessible experience for all members and guests.

Scope:

This policy applies to all members and guests of the club who require a Handicap Cart for accessibility purposes.

1. Eligibility for Handicap Cart Access

To qualify for handicap cart access, a golfer must have a documented disability as defined by the ADA. The following criteria will be considered:

- A permanent or temporary mobility impairment that substantially limits major life activities, such as walking or standing for extended periods.
- A medical condition that requires the use of a mobility aid, such as a wheelchair, scooter, or walker.

2. Request Process

Golfers requesting handicap cart access must submit a request to the Club's Golf Operations team. To complete this process, golfers must provide the following documentation:

- A state-issued ID to verify identity. To qualify for a Handicap Flag, the individual(s) must possess a state approved permanent or temporary disabled parking placard or license plate registered in the golfers name. All golfers must provide the proper documentation and identification to the Professional Shop to register for a Handicap Flag Status.
- Members can put this status on file for one year, but must renew each year. All Golfers must check-in each time they play to let the Golf team know that they need handicap status on their GPS.

Once approved, the golfer's cart will be digitally enabled for handicap access via the GPS system, allowing the cart to operate with the necessary accommodations.

3. Use of Handicap Cart

- Upon approval, the golfer's cart will automatically be enabled with handicap access through the GPS unit, which will allow the cart to access areas closer to greens and tees as necessary.
- Golfers with handicap access must still adhere to the course guidelines, including using designated cart paths and areas as directed by course management.
- Handicap access is designed to provide reasonable accommodation but is not intended to allow unrestricted access to sensitive course areas such as tee boxes or greens.

4. Protection of Course Integrity

In order to maintain the quality of the course for all golfers, the following guidelines must be observed:

- Golf carts with handicap access must stay on cart paths wherever possible and may only enter fairways or roughs when necessary for accessibility.
- Golfers should not drive carts onto tee boxes, greens, or other sensitive course areas unless expressly permitted for accessibility reasons.
- In cases of wet or adverse weather conditions that could damage the course, the Club reserves the right to limit or adjust the use of handicap carts to protect the course.

5. Responsibility of Golfers

Golfers using a handicap-enabled cart are expected to:

- Follow the Club's guidelines for handicap access and course maintenance.
- Operate the cart safely and responsibly at all times.
- Return the handicap cart access to the Golf Operations team if no longer needed or if the golfer's condition changes.

6. Course Management Discretion

The Golf Operations team retains discretion to assess and address any concerns related to the use of handicap-enabled carts. If course conditions or player behavior could negatively impact the course, the team will work with the golfer to find a reasonable solution.

7. Review and Adjustments

This policy will be reviewed periodically to ensure compliance with ADA regulations and to address any changes in course conditions or legal requirements. Members will be notified of any updates or changes.
